

Novelties

PROJECT the most complete range of bathroom accessories

[Click on the image to open the PDF](#)

From the combining of circular and squared forms comes the design of straight and pure lines, which characterises every piece in the collection: hangers, soapdishes, toothbrush holders, dispensers, towel rails, shelves, magnifying mirrors, support rails, paper and brush holders; in a chrome finish. Their versatility and functionality means they can be included in a variety of architectonic spaces and different interior styles and as such they are suitable for all specifications, even large projects such as hotels.

The design incorporates latest technology and top quality materials, with particular attention to detail, such as the bases, which have been designed specifically for each piece. This means they are highly resistant and easy to assemble.

With **PROJECT**, COSMIC launches a collection contemplated for living the present and the future whilst surpassing fashions and trends. It comprises everything to make it an ever-lasting classic.

Awards

DROP & SIMPLEX nominated for Delta Awards 2007

Introducing the new counter accessories **DROP** collection, designed by Ricard Ferrer, and the basins and stools **SIMPLEX** collection, designed by Martín Ruiz Azua and Gerard Moliné, which have been manufactured by means of rotomolding.

Both collections have been **nominated for Delta Awards 2007** promoted by ADI-FAD. This Award acknowledges all those products which stand out for being innovative and original, for their capacity to satisfy the user's needs, environmentally friendly and for their quality.

COSMIC in the media

COSMIC in Sapphire Design Guide

From 2001, the legendary trade mark of gin Bombay Sapphire, through the Bombay Sapphire Foundation, has acknowledged, supported and awarded the best contemporary design. That is why, year after year, they publish their **Sapphire Design Guide** in order to introduce some of the most contemporary trends of the market nowadays. COSMIC has been nominated to be part of this World, where all Art disciplines related to design and architecture can be found.
